Hello

Let's Talk Travel

Introduction

Travel Tips

By Land, Sea, Air and everything in-between

New – Update Secure Flight program

Starting on August 15, 2010 you need to be sure that your name matches your ID.

For example, if the driver's license or passport lists the passenger's name as "John William Smith" you should reserve your flight under "John William Smith" not "John Smith" or "John W. Smith."

In the second phase of the **Secure Flight program**, which started last August 15, passengers will also be required to enter their:

date of birth, gender and watch-list redress number (if it applies) when booking airline flights.

Passports - NEEDED more now than before

New requirements for Passports

New type of Passports Computer chips, scan reading

Canada - Mexico - YES

Check at your City Halls US Post Offices

Now there "MINI" passports (like credit cards)

Notes:

Use Buttons As Earring Holders

When you're packing jewelry, be sure to also pack a drinking straw and a few buttons.

Drinking straws can protect your necklaces from tangling. Simply thread one end of the necklace through the straw and secure the clasp. The straw will keep it from tangling and knotting in the bottom of your bag.

And buttons can hold and keep your earrings secure. Simply put the earring post through the button hole. Then, place the back of the earring on the other end. This keeps them out of the creases of your jewelry bag (making them harder to lose). And you can put the other earring in the same button, to keep them together. That way, they'll be easier to find when you're dashing out for dinner.
